- To ask a question for discussion during Q&A, please:
  - ‘Raise your hand’ in the participant window and moderator will unmute you to ask your question live,
  - OR
  - Type your question into the chat box
**Defining Virtual First Care**

**Virtual first care (V1C)** is medical care for individuals or a community accessed through digital interactions where possible, guided by a clinician, and integrated into a person's everyday life.

- **The ability to initiate care from anywhere at any time** through telecommunication and digital technologies.

- **Intentional selection of the care setting** matched to a person's clinical needs and preferences, with some aspects safely and effectively delivered virtually, and others necessitating in-person care.

- **Complete solutions** that support a person to take all of the necessary next steps in their health journey.

- **Adherence to all applicable laws** that apply to healthcare providers, including best practices on standards of care, individual safety, security, privacy and data rights.
VIC Expert Remarks: Donald Jones

Co-Founder, IMPACT
Chair, Cardiff Ocean Group
Payor Expert Remarks:
Saurabha Bhatnagar, MD

Chief Health Officer, Commure
IMPACT Payer V1C Contracting Toolkit

Guide to Payer-V1C Contracting

Guide to V1C Payment Models

V1C Coding Library

IMPACT
Virtual First Medical Practice Collaboration
Toolkit: Guide to Payer-V1C Contracting

Outlines each section of the contract with detail on:

- Specific considerations that should be accounted for in V1C,
- Practices that are ideal, acceptable and to avoid,
- What should be included in phase 1/phase 2 contracts,
- Sample language

Access the toolkit at impact.dimesociety.org/toolkit
Toolkit: Guide to V1C Payment Models

Mines lessons learned from IMPACT’s payment models workshops to outline:

- 4 primary models:
  - Per Participant per Month (PPPM),
  - Per Episode of Care,
  - Per Member per Month (PMPM)
  - Fee for Service (FFS)

- V1C approaches best suited to each payment model
- Best practices around using the models in V1C for each payment model

Access the toolkit at impact.dimesociety.org/toolkit
Toolkit: V1C Coding Library

Culls IMPACT member experience with coding in 3 sections:

- Codes currently in use in V1C
- Codes that exist but that are restricted in a way that don't allow them to be used in V1C
- Ideas for new codes that could be added to better support V1C coding
