Improving and increasing diversity, equity, and inclusion in the clinical trial design process.

“Diversity is receiving an invitation to a party. Equity is possessing the resources to attend. Inclusion is being asked to dance” – Author Unknown

Introducing the Digital Medicine Society (DiMe)

We deliver clinical quality work on a tech timeline

**COMMUNICATION & EDUCATION**
Resources & publications generated by DiMe are shared through open-source channels & educational programs, & used by stakeholders across the field to advance digital medicine.

**RESEARCH & RESOURCE DEVELOPMENT**
Our community identifies the priority topics that are most critical to advancing the field and then, together, we conduct field-leading research to create clinical-quality resources on a tech timeline to drive progress.

**COMMUNITY**
DiMe partners & experts from across tech & healthcare unite to improve health & healthcare through digital medicine.

**New knowledge & capabilities in the field**
spark new collaboration opportunities

**Greatest challenges & opportunities to advancing the field**
