Our responsibility for a safe and equitable future

Digital health monitors are booming, but where's the research on privacy and ethics?

By Katie Palmer  Sept. 15, 2021

A new review found virtually no research into ethics, security, and data rights of digital health measures — a worrying trifecta of blind spots for a field and an industry that will need the public's trust to make a difference in health outcomes.
Distribution of studies by topic and funding source

Total studies: 295

Studies - Ethics 0
Studies - Data Rights 0
Studies - Security 0
